

YOUR VACCINE SAFETY

VACCINE INJURY COMPENSATION SCHEME

All vaccine injuries are dealt via a Medical Negligence Claim. It requires hiring the services of a solicitor and is time consuming. A number of TDs have asked the Minister of Health to establish a COVID-19 Vaccine Injury Compensation Scheme, yet to date, the Department of Health has refused this request.

43.3 THOUSAND PEOPLE IN IRELAND DIDN'T RECEIVE SECOND DOSE OF TWO DOSED COVID-19 VACCINE.

Up to March 2023 43.3 thousand people didn't receive a second dose of a two dose COVID-19 vaccine. We don't know the reasons behind it, but we suspect adverse reactions. All those who decided to get the vaccine expected to receive two doses in order to be fully vaccinated.

HOW CAN YOU HELP

You can help vaccine victims by contacting your local councillors, TDs, GAA figures, journalists, celebrities, parish priests, community leaders etc. We are asking these people who have influence on society, to help bring this issue to the public attention, and pressure government on behalf of those injured by the COVID-19 vaccine, and their families.

IF YOU RECEIVED COVID-19 VACCINE CHECK YOU HEALTH REGULARLY

Some adverse effects such as blood clots are treatable if discovered at an early stage, left undiscovered these can be life threatening. Even if you feel good ask your GP for regular health check.
